Work Experience

Front End Developer

Deeper Life High School-Akwa Ibom

September 2024 to Present

Creative and detail-oriented Front-End Developer with a strong focus on building clean, responsive, and user-friendly church websites. Proficient in HTML, CSS, JavaScript, and modern UI frameworks to deliver visually appealing designs and seamless functionality. Experienced in implementing key features such as event calendars, sermon libraries, donation portals, and contact forms to enhance community engagement. Passionate about combining technical expertise with design principles to create websites that reflect the church's mission, strengthen its online presence, and provide an exceptional experience for visitors.
